Compaction wheels

Compaction of completed trenches is required in many situations. Don't give your opposition an advantage – a compaction wheel from Agritech will allow you to finish the job to your customer's complete satisfaction.

Three solid steel wheels with solid teeth mounted on a chrome moly axle pin and 3" Tapered Roller Bearings allow for smooth, efficient operation.

Remote grease nipples and seals both sides of the bearings allow easy maintenance, while the bearings are readily replaceable if required, ensuring a minimum of downtime.

Whatever the job, Agritech's compaction wheels are a must.

*** Agricultural * Municipal * Construction * Mining * Dam Walls**

CARRIER SIZE (tonne)	6-10	11-16	20-24	24-30
